Reasons for allowance

The following is an Examiner's statement of reasons for allowance:

Borch *et al* (US 5,472,956) teach the cyclophosphamide analogs which are useful as anti-tumor agents. The instant compound differs from the prior art by having a compound of formula (I), which is further substituted by different variables such as R¹ (Quinone ring), R_a, R_b and R_c etc that are attached directly or indirectly to the core phosphoramidate structure, which may be useful for treating cancer. The prior art compound neither teaches nor renders obvious the instantly claimed compounds and there is no suggestion or motivation to modify the compounds of other prior art to obtain the instant compounds. Therefore, the instant claims are allowable over the prior art of record.
